PROVIDING POWERFUL CONNECTIONS TO YOU AND YOUR BUSINESS

Covering the Southern Ontario region and beyond, Net Electric specializes in new and redesigned electrical construction for colleges, universities, government buildings, commercial retail centers, hospitals, transportation networks and more. Our highly skilled electrical construction personnel value the building process from the planning stage through to the very last detail. We communicate and coordinate with all parties involved including

architects, engineers, owners and our fellow trades to ensure the timely installation of a safe, effective and top quality electrical system. Our philosophy emphasizes customer satisfaction, community responsibility and the environment. Every project we undertake is met with the same degree of professionalism, ingenuity and teamwork which has allowed us to become the “best” in the eyes of our inside and outside customers.

A full service electrical contractor and your trusted partner

OUR EXPERIENCE FOR THE FUTURE

From small retail spaces and simple office renovations to major transportation expansions and educational complexes, our experience is derived from the thousands of jobs we have successfully completed during our thirty-seven years in business.

It is this depth of knowledge which makes us the partner of choice in so many fields and industries. With our advanced skills-training and eye on technology, Net Electric welcomes the future. Our Building Automation and Communication Groups work hand-in-hand with our electricians to deliver leading-edge solutions to you and your operation.

SAFETY & QUALITY ASSURANCE

At Net Electric, we pride ourselves in our ability to complete projects on time, and on budget. Our strong commitment to the safety and well-being of our employees is our top priority. Continuous improvement, training and keen awareness are encouraged as is an unwavering commitment to Quality Control and Assurance.

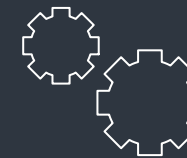

EMERGENCY SERVICE & PREVENTATIVE MAINTENANCE

Net Electric believes that offering an emergency service means being available to our customers 24 hours a day, 7 days a week all year round. We understand the importance of keeping our clients' systems and production up and running and healthy.

We know that system failures often result in significant revenue losses and, more importantly, the loss of customer confidence. Our highly trained and certified electricians and service technicians are renowned for their quality workmanship and are extremely proud of our industry recognized safety record.

- 24 HOUR EMERGENCY SUPPORT
- THERMOGRAPHY AND RE-TORQUE CONNECTIONS
- PANEL BOARD, DISCONNECT AND UPS FUNCTIONALITY
- INSPECTION OF HEATING AND COOLING UNITS
- INTERIOR AND EXTERIOR LIGHTING
- CEC CODE COMPLIANCE

DESIGN & ENGINEERING

Our design and engineering services provide you with accurate, quick and cost effective services for your commercial, industrial, institutional and transportation facilities. We are extremely well versed in all aspects of CADD and are compliant with all applicable CEC, NEC, IEC, EIA/TIA and BICSI codes and standards.

YOUR COMFORT ZONE

With almost 40% of energy produced being consumed by buildings, and over 50% of buildings operating at less than 60% efficiency, your energy concerns are top-of-mind like never before. Let Net Electric work with you to maximize your building, control and communications systems so that you can enjoy the comfort and savings.
